Profile

I'm MERN stack developer with a strong background in JavaScript, React.js, Node.js, Express.js, and MongoDB. Skilled in full-stack development, RESTful APIs, and integrating third-party services. A proactive learner, up-to-date with industry trends and best practices. Experienced in Agile development and version control with Git. Detail-oriented and problem-solving mindset. Excellent communication and teamwork skills. Committed to delivering clean, scalable, and well-documented code.

Education

2016 – 2020 **Faculty of computers and information**
Mansoura, Egypt *Mansours University*
